

# Phillip (Phil) Anderson

*A dynamic professional speaker, sure to engage and inspire your audience or guests.*

Building on a successful career of leading non-profit organizations in agriculture and rural community development, I am a Teacher, Teller, Traveler, and Connector. I so enjoy speaking when I can talk with the audience members rather than talking at them.

Drawing upon 40+ years of experience and expertise, it's fun to help groups and individuals rethink the questions we ask, create conversations that matter, and share stories.

As a strategic-connector-of-dots, I see the patterns within complexities revealing new ideas and concepts. I am a dynamic speaker and effective writer, bringing ideas and stories to life and helping them resonate with key audiences. Let's have a conversation about your place and your story.
